(4 × 5 = 20 Marks)

PART – C

Answer any **four** of the following. **Each** question carries **6** marks.

1. Ajay is a driver working in a private company. One day, his Manager asked him to drop a customer at the airport and get back at the earliest. On his way back from the airport, he happened to see his friend Lakshmi waiting for a bus to go home. He offered to drop her at home, which happened to be close to his office. She got into the car and soon thereafter; the car met with an accident due to Ajay's negligence. Lakshmi was thrown out of the car suffered multiple injuries. She seeks compensation from the Company. Decide.
2. A, while driving a car at high speed in a crowded road, knocked down a cyclist. The cyclist died on the spot with a lot of blood spilling around, B, a pregnant woman passing by, suffered from a nervous shock, leading to abortion. B filed a suit against Krishnan claiming damages. Decide.
3. X hands over some money at his house to Y, who is X's neighbour and is also cashier in a bank, to be deposited in A's account in the bank. Instead of depositing the money, Y misappropriates it. X sues the bank for the loss of his money. Decide.

4. There was a school named N.M High School in a particular locality which was established way back in 1970. Subsequently, a new school was set up in the same locality which charged lower fees, on account of which people started patronising the new school. Because of the competition, N.M High School had to reduce its fees. The management of N.M High School filed a case against the new school saying that they had caused it financial loss and, thus, claimed compensation. Decide.
5. Barnab who was the editor of a regional news channel, aired a series of programmes mentioning that Kunal, who was a government servant, issued false certificates, accepted bribe, adopted corrupt and illegal means to mint money and was an "irritating retard". Kunal brought a civil action against Barnab, who could not prove the facts published by him. Decide.

(4 × 6 = 24 Marks)
