PERSPECTIVE PLAN

“Plans are of little importance, but planning is essential.”

— *Winston Churchill*

The college was devised with the vision during its inception- “Mar Gregorios College of Law envisions to evolve as a centre of excellence in legal education by creating socially committed and professionally competent vibrant cadre of lawyers.” This aim has been duly achieved within the short period of establishment. The college is set out with the notion of building socially committed and ethically valued lawyers which is representative from the mission statement adopted by the college- “An institution of legal learning facilitating every student to be a professional lawyer to face all the challenges of the profession with a commitment to social and ethical values.”

Perspective Plan of the institution helps in achieving the mission and vision of the institution to transform students academically, personally, and professionally through the development of new innovative courses and programs to enrich the student experience for learners. Such a roadmap is inevitable for the future of the institution and is crucial in making decisions about the institutional facilities. It also helps to redefine the institution as the epitome of legal education.

To achieve the institutional goals, a perspective planning keeping in view the changes in legal education is a must. Thereby discussing the facets of legal education with the eminent scholars a future course of action is prepared under the following heads: Academic, Administration and infrastructure.
